The AVAST Foundation is an inseparable part of the AVAST Software company and exists as a direct result of the hard work of the company's employees, who total almost 400.

That's why all employees get a chance to recommend the support of a beneficial project to their employer, something they take a part in as volunteers or that they are in closer touch with and trust its message and efforts.

The following people have evaluated the projects: For Board of Directors of the AVAST Foundation Jarmila Baudišová, Milada Kučerová, Libuše Tomolová and the HR director of AVAST, Kamila Štěpánková.

We would like to thank all of our colleagues for observing what's happening around them, listening and caring for the world around them, and for helping to improve the world around them by taking part in this program.
