

AVAST EMPLOYEE FUND

4th year of the program
projects from 2016

AVAST FOUNDATION

AVAST Foundation is an integral part of the company Avast Software and therefore exists also thanks to the work and results of the 600 employees of the firm.

Many of them volunteer in various publicly beneficial non-profit organisations or are interested in people's problems and in various themes in their community as well as in the world.

The employees can personally help and, thanks to their work in Avast Software, recommend support for any of the publicly beneficial organisations in which they volunteer, support it in other ways or fully trust its mission and results. They may obtain up to CZK 50,000 of grant for it.

We give them the opportunity to co-decide on the use of a part of the funding of our Foundation and so build the good name of Avast as a socially responsible company. This year, we opened the programme on a world scale for the first time. Nominations could be submitted by employees working in countries where Avast is located: the Czech Republic, Germany, USA, China, Hong Kong and Taiwan.

In total, we received 75 grant applications. Of that we supported 62 organisations with a total sum of CZK 2 912 741.

The applications were evaluated by: members of the AVAST Foundation Board of Trustees Jarmila Baudišová, Milada Kučerová, Libuše Tomolová, and by Chairperson of the AVAST Foundation Supervisory Board Kamila Štěpánková

We would like to thank all our colleagues that they look around, listen and show interest in the world around them. That they do something, and by participating in this programme they help to change the world for the better.

Supported organizations and their Avast Patrons:

Ano, ano (civic association)

Projects Dream and Sports help

Karel Soušek

Auto*Mat (civic association)

To experience the city in a different way 2016
