

Avast For Business

Avast for Business is the future of business security: anytime, anywhere cloud-based protection that covers all of your devices (PCs, Macs, even servers), wherever they are, against malware, spam, phishing, hackers, and more. The intuitive portal lets you add, adjust, or remove the real-time protection in minutes – no IT expertise required – and you’ll always know the security status of your network with alerts and reports generated automatically whenever you need them. And the best part? It’s free.

KEY FEATURES - AVAST FREE BUSINESS SECURITY

WEB PORTAL

DRIVEN FROM THE CLOUD

Access and manage devices from anywhere.

INTUITIVE DASHBOARD

Get a quick overview of your network security status.

ADD AND REMOVE DEVICES AS YOU NEED

Make sure your entire network is protected at all times.

DEVICE MANAGEMENT

See the security status of any device at any time.

SIMPLE SETTINGS MANAGEMENT

Keep your device settings consistent across your network for ease of management.

NOTIFICATIONS / ALERTS

Get immediate notifications of security events on your network.

REMOTE TASK

Execute targeted scans and emergency updates remotely.

INTEGRATED APP STORE AND BILLING

Purchase additional protection and Avast products directly through the web portal.

INTEGRATED SUPPORT

Get support directly from Avast technicians or chat with other Avast for Business users through the Avast for Business portal.

WORKSTATION (PC/MAC)

SECURE HTTPS SCANNING

Enables your Avast solution to scan HTTPS sites for hidden threats. You can exclude financial and other sites with which you regularly do secure business so that scanning won't slow your access.

ANTIVIRUS AND ANTI-MALWARE

The world's most-trusted antivirus and anti-malware engines to keep you better protected.

STREAMING UPDATES

Keeps your protection as up-to-date as possible.

SILENT MODE

Lets you focus on specific tasks without interruption.

BOOT-TIME SCANS (PC ONLY)

Detects malware buried deep in your computer's start-up process.

HARDENED MODE (PC ONLY)

Only allows apps to run that you've specifically authorized.

ANTI-PHISHING

Lets you know when a site is not what it claims to be.

BROWSER CLEAN-UP (PC ONLY)

Deletes annoying and unwanted toolbars or plug-ins from your browser.

SERVER

INTEGRATED FILE SERVER PROTECTION

Includes high-performance scanning, superior scalability, and support for clustering (even in active-active mode), and integrates directly with SharePoint through Microsoft's own virus scanning APIs.
